School Mission

The Trade School No 17 from Glodeni represents a component of the professional technical education in Moldova and according to the Law on Education, has the following mission:

To competitively train young workers, train and re-qualify adults, to assure an education focused on real performances and skills that supports personal, intellectual and professional development, using for this matter different methods, procedures and modern educational technologies, as well as flexible training programs, adequate to the current and future labor market requirements.

At the same time, the school is required to offer to the community and the neighboring regions opportunities for professional development; making people conscious that continuous training is very important for successful job opportunities, equal chances for everyone with the general purpose of ensuring economic cohesion.

Teaching Staff:	2008:	11
	2009:	11
	2010:	11
